

1 Day Volume Profile At End of Chart [\[Link\]](#) - [\[Top\]](#)

page=doc/StudiesReference.php&ID=141&Name=Volume_by_Price#1DayVolumeProfileAtEndOfChart

- [Number Of Periods Back To Reference](#): 0.
- [Volume Graph Period Type](#): [One Period at End of Fixed Time Length](#).
- [Time Period Type for 'Fixed Time'](#): Days.
- [Time Period Length for 'Fixed Time'](#): 1.
- Set the [Chart Session Times](#) as required.

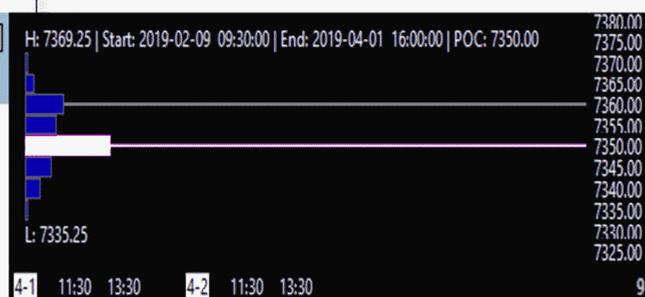

Input Name	Input Value
Draw Mode (In:30)	Volume Profiles
Number Of Periods Back To Reference (In:31)	0
Ticks Per Volume Bar (In:32)	20
Volume Graph Period Type (In:33)	One Period at End of Fixed Time Length
Set as Independent Volume Profile for TPO Chart (In:107)	No
Time Period Type for 'Fixed Time' (In:34)	Days
Time Period Length for 'Fixed Time' (In:35)	1

1 Day Volume Profile for Prior Day at End of Chart [\[Link\]](#) - [\[Top\]](#)

page=doc/StudiesReference.php&ID=141&Name=Volume_by_Price#1DayVolumeProfileForPriorDayAtEndOfChart

- [Number Of Periods Back To Reference](#): 1.
- [Volume Graph Period Type](#): [Multiple Profiles Based on Fixed Time](#).
- [Time Period Type for 'Fixed Time'](#): Days.
- [Time Period Length for 'Fixed Time'](#): 1.
- [Number of Days To Calculate Volume Profiles](#): 1.
- [Minimum Time Period % for Reference Days Back](#): 50.
- Set the [Chart Session Times](#) as required.

Input Name	Input Value
Draw Mode (In:30)	Volume Profiles
Number Of Periods Back To Reference (In:31)	1
Ticks Per Volume Bar (In:32)	20
Volume Graph Period Type (In:33)	Multiple Profiles Based On Fixed Time
Set as Independent Volume Profile for TPO Chart (In:107)	No
Time Period Type for 'Fixed Time' (In:34)	Days
Time Period Length for 'Fixed Time' (In:35)	1
Number of Bars for 'Based On Bar Count' (In:36)	1
Volume Per Profile for 'Specified Volume' (In:2)	1
Number Of Days To Calculate Volume Profiles (0=All Days) (In:4)	1
Minimum Time Period % For Reference Days Back (In:106)	50

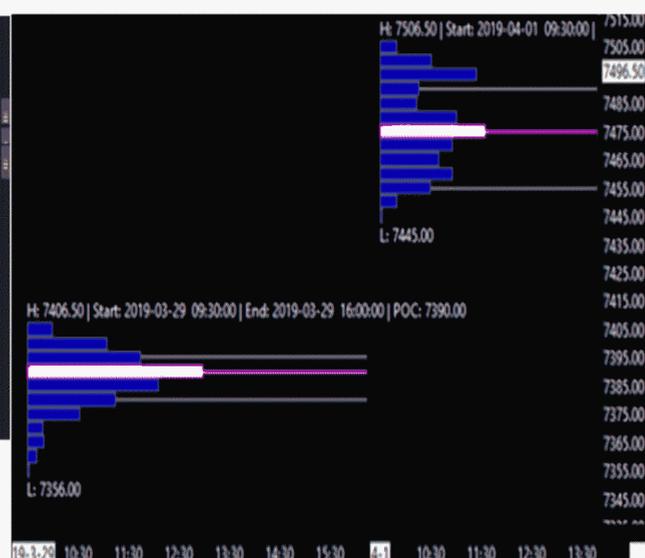

Note that these settings assume that the prior day has at least 50% of the data for the day. If the prior day does not have data for at least 50% of the time, then the calculation will go back to the next day and check if it has enough data, and so on until a day is found that has the necessary amount of data.

Multiple Profiles Based on Fixed Time [\[Link\]](#) - [\[Top\]](#)

StudiesReference.php&ID=141&Name=Volume_by_Price#Input_VolumeGraphPeriodType_MultipleProfilesBasedOnFixedTime

This defines a fixed period for the Volume Profiles based on the [Time Period Type for 'Fixed Time'](#) and the [Time Period Length for 'Fixed Time'](#) settings. Multiple Volume Profiles are drawn from the beginning of the chart.

These Volume Profiles use the [Session Times](#) settings for the chart and the Volume Profiles will start at the [Session Times >> Start Time](#) or the [Evening Start](#) when using the Evening Session.

Input Name	Input Value
Draw Mode (In:30)	Volume Profiles
Number Of Periods Back To Reference (In:31)	0
Ticks Per Volume Bar (In:32)	20
Volume Graph Period Type (In:33)	Multiple Profiles Based On Fixed Time
Set as Independent Volume Profile for TPO Chart (In:107)	No
Time Period Type for 'Fixed Time' (In:34)	Days
Time Period Length for 'Fixed Time' (In:35)	1
Number of Bars for 'Based On Bar Count' (In:36)	1
Volume Per Profile for 'Specified Volume' (In:2)	1
Number Of Days To Calculate Volume Profiles (0=All Days) (In:4)	0
Start Date (In:37)	2019-03-29
Use Different Start Time (In:38)	No
Start Time (In:39)	09:00:00
End Date (In:40)	2019-04-01
End Time (In:41)	14:30:00
Minimum Time Period % For Reference Days Back (In:106)	50
