Number Of Systems (Computers)

[1 System(s) ▼] [Set]

This section is for setting the number of independent computer systems you are able to receive the Denali Exchange Data Feed on at the same time.

Once you set the number of systems, this setting will remain for the current calendar month if you have exchanges active.

If you have exchange options enabled, you will be charged the exchange fees again for the use of the additional computer/system.

- For the current month, the account is set for **1** system(s).
- For the upcoming month, the account is set to renew with **1** system(s).
